

Mother of Divine Grace School
2612 East Monmouth Street
Philadelphia PA 19134

September 2010

Dear Parents,

The students have been given the opportunity to surf the internet when they are using the our computers. To ensure that everyone is surfing the internet correctly the teachers will be reviewing with the students what proper and acceptable sites are for young Catholics. Also, it is imperative that the students know the correct way to use search engines and they not use someone else's work as their own.

The Technology Task Force has purchased and has made sure that the necessary software has been installed to protect our students from going on inappropriate websites. Inappropriate material and social websites are blocked. This software also blocks instant messages and prohibits students from writing or receiving emails.

We are asking that every child in Mother of Divine Grace School sign the Acceptable Use Policy for Technology along with his/her parents. Please review this policy with your child and return it to his/her teacher on or before Tuesday, September 14th.

If you have any questions or concerns please feel free to contact the school office. Thank you for your cooperation in this matter.

Respectfully,
Jane Ellen Lockhart
Mrs. Jane Ellen Lockhart
Principal
